

## CAPABILITY STATEMENT 2025

### Peelable Dinnerware LLC

*Innovators in eco-friendly reusable paper dinnerware, tableware, kitchenware.*

---

## Company Overview

Peelable Dinnerware LLC is a U.S.-based company founded in 2021 and headquartered in New Jersey. We manufacture and distribute an innovative line of peelable, multi-layered disposable dinnerware under the brand name **Peelware**. Our flagship product — the Peel Plate — is designed to be peeled after each use, allowing a single plate to last for up to 15 full meals or snacks. This dramatically reduces waste, economic burdens and offers a high-performance, cost-efficient alternative to traditional paper and plastic dinnerware. With mass production operations in China, India, and the United States, we are positioned to support both high-volume and specialized production orders, and we deliver to customers globally with optimized logistics and handling customs.

---

## Core Competencies

- **High-Capacity Manufacturing:** 250,000+ units per month standard, scalable to over 1 million units/month for large contracts. By next year, we are expanding to a 2 million unit/month capacity to support growing international demand.
  - **Full Product Line:** Peel Plates (small, large), Peel Trays (small, large), Peel Bowls (small, large), Peel Cups (small, large), and additional SKUs under development.
  - **Customization Options:** Multi-language packaging, color variations (natural brown or bleached white), and paper compositions for maximum leak-resistance with maximum compostability.
  - **Logistics & Fulfillment:** Turnkey delivery from our global factories/warehouses to your receiving zones, including customs processing. We offer favorable shipping rates, low minimum order quantities, and rapid production cycles.
  - **Digital Ordering Platform:** Our wholesale portal [wholesale.peelware.com](https://wholesale.peelware.com) allows procurement teams to access product catalogs, pricing, and order samples with ease. We also provide a live support chat you can access for free at [peelware.com](https://peelware.com).
-

## Differentiators

- **Performance & Reusability:** Each plate lasts for up to **15 servings**, eliminating the need to constantly replace dinnerware and significantly reducing environmental impact and operational costs.
- **Sustainability:** Peelware products are **plastic-free**, biodegradable, and made with **FDA-approved, compostable materials**.
- **Global Reach with Localized Control:** Our tri-continent manufacturing strategy gives us speed, redundancy, and flexibility in meeting global demand while also providing U.S.-based oversight and support.
- **Published Patents & Pending IP:** Our proprietary **Peelware** technology is protected by published patents & international treaties, with more pending, giving buyers exclusivity and market differentiation that provides customers with unbeatable value.
- **Market Data:** They're perfect for wherever you can't wash dishes or rather not & market data shows 19 out of 20 people prefer Peel Plates than regular paper plates. The best placement for our products are next to or in front of the regular paper plates. When customers see our products they'll be more likely to make a purchase even if they weren't planning on buying paper plates that day. The average yearly sales from each returning customer is \$84.

---

## Performance

**Peelware** is open for **large-scale wholesale and government contracts**, with the capacity, infrastructure, and readiness to fulfill bulk orders across retail, hospitality, foodservice, healthcare, military, and public-sector institutions. We serve global customers and maintain an excellent reorder potential due to the unique nature and high satisfaction of our products.

We are open to facilitating new business with companies like yours that want to offer their customers a better way to eat daily. This is a great opportunity for you to attract new customers that will return frequently & you can be the first to introduce **Peelware** to your markets.
